2012-2014 NBER, Research Assistant for Jonathan Gruber

Educational Materials for the Lay Community:

The Immigrant Doctors Project (<https://immigrantdoctors.org/>): is a project by Harvard and MIT Economics PhD students demonstrating where immigrant doctors from Iran, Libya, Somalia, Sudan, Syria, and Yemen practice in the United States. We find that doctors from these countries provide 14 million appointments each year across America, providing vital services throughout the Rust Belt and Appalachia, especially in Ohio, Michigan, West Virginia, Indiana and Kentucky. The results have supported several amicus briefs and have been covered by many news sources including, but not limited to, CNN, NBC, Huffington Post, Vox, FiveThirtyEight, and The Boston Globe.

Professional Experience:

Conferences and Seminars **2020:** AcademyHealth Annual Research Meeting*, Annual Conference of the American Society of Health Economists*, Advances in Field Experiments conference*, University of Notre Dame, University of Texas Austin, University of Pennsylvania, Office of Tax Analysis United States Treasury, Boston University [*cancelled or postponed due to COVID19]
